

Table 3. Comparison of Existing-Conditions Periods of Analysis for Resource Categories Used in the Pending CVPIA Programmatic EIS, SWRCB Water Rights EIR, and Proposed for the CALFED Bay-Delta Programmatic EIR/EIS

Resource Category	CVPIA PEIS	SWRCB EIR	Proposed CALFED Bay-Delta Program EIR/EIS
<b>Physical Environment</b>			
Surface-Water Hydrology	1922-1992	1922-1994 hydrologic record; D-1485 water quality standards, upstream river mgmt. in accord with biological opinions to protect fish	1986-1995 (based on hydrologic record from 1922; SWRCB 1WR; Bay-Delta Accord)
Water Management Facilities and Operations	1992	1995 demand per Bulletin 160-93	Under consideration
Groundwater Hydrology	1992	1985-1994	1986-1995
Riverine Hydraulics	1992	1922-1994	1986-1995
Bay-Delta Hydrodynamics	1922-1992	1922-1994	1986-1995
Water Quality	1922-1992	1985-1994	1986-1995
Geomorphology and Soils	1980	1985-1994	1986-1995
Air Quality	1978-1996	1985-1994	1986-1995
<b>Biological Environment</b>			
Riverine Aquatic Habitat	1967-1992	1982-1994	1986-1995
Estuarine Aquatic Habitat	1967-1992	1982-1994	1986-1995
Wetland & Terrestrial Habitat	1967-1992	1982-1994	1986-1995
Fishery Resources	1967- 1991	1985-1994	1986-1995
Plants and Wildlife	1992	1985-1994	1986-1995

Table 3. Continued

Resource Category	CVPIA PEIS	SWRCB EIR	Proposed CALFED Bay- Delta Program EIR/EIS
<b>Economics and Social Environment</b>			
Land Use	1992	1985-1994	1986-1995
Agricultural Economics	1990-1992	1985-1994	1986-1995
Municipal and Industrial Water Supply Economics	1983-1990	1985-1994	1986-1995
Flood Control System and Other Infrastructure	1985	undecided	1986-1995
Public Health	1980-1993	1985-1994	1986-1995
Power Production	1992	1982-1994	1986-1995
Recreation (incl. economics)	1983-1992	1985-1994	1986-1995
Visual Resources	1992	1994	1995
Commercial Fishing	1967-1991	1984-1994	1986-1995
Regional Economics	1992	1985-1994	1986-1995
Cultural Resources	1992	1994	1995

Note: The resource categories in this table are expected to be used in the framework of the CALFED Bay-Delta Programmatic EIR/EIS. While these categories are not all identical to those used for the CVPIA and SWRCB documents, the resource elements are expected to be considered in a similar manner as expressed in the table. Some variation may occur before the documents are finalized.
